

Easy Change of Electrodes Without any Tools – Simple, Fast and Precise

With the Easy Change System, electrode changes are done in just a few seconds, minimizing your service downtime. The simplicity of the exchange system does not require any special worker skills or tools and there is no need for adjustments when the electrode cartridge has been replaced. It could not get any easier and faster than this!

Ahlbrandt is well known for its state-of-the-art, high-efficiency Corona systems designed for superior surface treatment. With the Easy Change system, cleaning and service are done fast and are easily performed by any operator. The system can be equipped with different types of electrodes, including the new particle-free CleanSpec™ electrode for clean-room and food-grade processes.

Advantages

- Minimum downtime – electrode change within seconds
- No skilled worker or tools necessary
- Simple cleaning on the workbench possible
- No adjustment required after the electrode cartridge has been exchanged
- All the advantages of the Corona Pure System
- Simple backside cleaning where the dust accumulates

Technical Details

- Single- or two-sided treatment of plastic and aluminum films
- Working width up to 2500 mm
- Web speed up to 600 m/min
- Material thickness up to 1.5 mm
- Suitable for every web guidance and installation position
- Exchangeable electrode cartridge with ceramic or metal electrodes
- Available with ceramic CleanSpec™ electrodes

Tool-less removal of the electrode system

Simple and safe operation – Easy fixation with snap locks

Cleaning and service on the work bench

Backside cleaning with air pressure

Always at Your Service

Ahlbrandt – A Baldwin Technology Company, has a large number of highly skilled service engineers ready to support your installation for years to come, and always close at hand. You can rely on our service expertise to maximize the lifetime of your equipment with outstanding results.

Green Technology Innovation

Based on our green technology development, we work constantly on reducing our environmental impact, both in our own facilities and for our customers.
